**47th International Symposium
ELMAR-2005 focused on
*Multimedia Systems and Applications***

08-10 June 2005
Zadar, Croatia

CALL FOR PAPERS

The 47th International Symposium ELMAR-2005 focused on *Multimedia Communications and Services* will be held in the beautiful old town Zadar on the Croatian Adriatic coast. While the scientific program is expected to create stimulating professional interaction, the crystal clear Adriatic Sea, warm June atmosphere and wealth of historic monuments promise a pleasant and memorable stay. The aim of the symposium is to promote the interface of researchers involved in the development, design and application of methods and techniques within the framework of multimedia systems and technologies, multimedia applications, image and video processing, digital video broadcasting (DVB), navigation systems, marine electronics, etc. The scientific program includes keynote lectures by eminent international experts and contributed papers. Papers accepted by two independent reviewers will be published in symposium proceedings available at the symposium and abstracted in the INSPEC and IEEExplore database (IEEE Conference Publication Program). ELMAR-2005 symposium is sponsored by the Croatian Society Electronics in Marine (ELMAR), technically co-sponsored by IEEE Signal Processing Society, IEEE Region 8 and IEEE Croatia Section, and in cooperation with EURASIP (European Association for Signal, Speech and Image Processing).

TOPICS

MULTIMEDIA

- Multimedia Systems and Technologies
- Multimedia Applications
- Image and Video Processing
- Digital Video Broadcasting (DVB)
- Mobile Technologies and Services
- Wireless Communications
- Speech and Audio Processing
- Face Recognition and Analysis
- Electronic Media

ELECTRONICS IN MARINE

- Navigation Systems
- Ship Electronic Systems
- Power Electronics and Automation
- Radiocommunications
- Antennas and Propagation
- Sound and Vibration
- Remote Sensing / Monitoring
- Meteorology
- Sea Ecology

PLENARY TALKS

Prof. Fernando Pereira, PORTUGAL:
MPEG-21 standard: defining an open multimedia framework

Prof. Luis Torres, SPAIN:
Face recognition: The problems, the challenges and the proposals
