- Users are encouraged to use their **real name and surname** for easier collaboration.
- It can be changed by clicking the "More actions" button on the bottom right corner of the screen.
- This menu also allows to change some of the settings for each user individually.
- To ensure better audio quality, users should **switch off their microphones**.

- Presentation is shared using the middle button on the bottom left corner which will lead you to the dialog-box with the choice of shareable screens, where presenter chooses the one with the started full-screen presentation.
- Interaction after each presentation will be moderated by session chair(s) and audience can either **write questions using chat** or **raise hand** to notify the moderator and ask directly.

- Alternatively, presentation can be previously recorded, and moderator will play it to the entire audience according to the official Program. In this case authors are advised to be on-line and accessible for answering potential questions. Authors should send the prerecorded presentations by Sunday.
